

Planned Website Improvements

- A survey questionnaire was sent to State Officers and members on our "Sign up for Updates" list. We received valuable input from this survey. We learned what areas are visited most by members and how often they visit. We discovered that most members are satisfied with the website overall, but some expressed frustration with navigation and a too-busy home page. In response we have added more links to improve navigation of the website and tidied up the home page.

During Q&A after Tom Panas' presentation on the website at the State Officers Conference the following valuable suggestions for further improvement were made. We will try to pursue them in the future.

- Make the website more tablet-friendly
- Allow for all forms to be submitted electronically
- Add more "how to" videos like the current "Instructions for Financial Review" by Immediate Past Regent Olga Samaniego
- Improve the "copy and paste" function so more articles and documents can be downloaded for state newsletters.

We will work on these in the coming months, and hope to send out another survey in six months.

If you have any questions or suggestions, contact Tom Panas at: cdashare@aol.com.
